Interviews with 1,012 adult Americans conducted by telephone by ORC International on September 4 - 8, 2015. The margin of sampling error for results based on the total sample is plus or minus 3 percentage points.

The sample also includes 930 interviews among registered voters (plus or minus 3 percentage points).

This sample includes 612 interviews among landline respondents and 400 interviews among cell phone respondents.

EMBARGOED FOR RELEASE:
Thursday, September 10 at 9:00 p.m.

BASED ON 923 REGISTERED VOTERS AND 7 INDIVIDUALS WHO PLAN TO REGISTER TO VOTE, FOR A TOTAL OF 930 REGISTERED VOTERS -- (SAMPLING ERROR: +/- 3% PTS.)

4. How enthusiastic would you say you are about voting for president in next year's election-- extremely enthusiastic, very enthusiastic, somewhat enthusiastic, not too enthusiastic, or not at all enthusiastic?

	Extremely enthusiastic	Very enthusiastic	Somewhat enthusiastic	Not too enthusiastic	Not at all enthusiastic	No opinion

METHODOLOGY

A total of 1012 adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. Among the entire sample, 27% described themselves as Democrats, 24% described themselves as Republicans, and 49% described themselves as independents or members of another party.

All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage.

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of +/- 8.5 percentage points or less. Some subgroups represent too small a share of the national population to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups, but results for groups with a sampling error larger than +/-8.5 percentage points are not displayed and instead are denoted with "N/A".

CNN/ORC International Poll -- September 4 to 8, 2015
