Dear Mily Maiden:

In light of the revelations concerning the improper activity of White House staff in the Pennsylvania Democratic Senate Primary, we are requesting all relevant documentation between Governor Ed Rendell, his office and the White House. Under the Pennsylvania Right To Know Law we ask that you release all cell phone, landline and email/written correspondence, sent/received by the Governor or his office, regarding any job offer or other enticement provided to Congressman Joe Sestak or any other Pennsylvania primary candidate, by the White House. In the spirit of transparency and open government, we are certain that you will honor this request.

Sincerely,
