7. As you may know, the U.S. went through a depression in the 1930s in which roughly one out of four workers were unemployed, banks failed across the country, and millions of ordinary Americans were temporarily homeless or unable to feed their families. Do you think it is very likely, somewhat likely, not very likely, or not likely at all that another depression like that will occur in the U.S. within the next 12 months?

CNN/OPINION RESEARCH CORPORATION POLL -- JUNE 3 to 7, 2011

Question 7

As you may know, the U.S. went through a depression in the 1930s in which roughly one out of four workers were unemployed, banks failed across the country, and millions of ordinary Americans were temporarily homeless or unable to feed their families. Do you think it is very likely, somewhat likely, not very likely, or not likely at all that another depression like that will occur in the U.S. within the next 12 months?

Base = Total Sample
