## METHODOLOGY

In Florida, a total of 583 registered Republicans were interviewed by telephone, including 446 likely voters. Sample was drawn from the complete list of registered Republican voters provided by the Florida Secretary of State and weighted to reflect the statewide totals for all registered Republicans for gender, race, age, amount of time registered at the current address, region of the state, and population parameters of the respondents' zip codes. Likely voters were identified based on each respondent's stated intention to vote in the 2012 primary, interest in the campaign to date, and voting history as provided by the Florida Secretary of State. Only registered Republicans can participate in the Florida Republican presidential primary.

In Iowa, a total of 783 registered Republicans were interviewed by telephone including 419 likely voters. Sample was drawn from the complete list of registered Republican voters provided by the Iowa Secretary of State and weighted to reflect the statewide totals for all registered Republicans for gender, age, amount of time registered at the current address, region of the state, and population parameters of the respondents' zip codes. Likely voters were identified based on each respondent's stated intention to participate in the 2012 primary, interest in the campaign to date, and voting history as provided by the respondent and the Iowa Secretary of State. Only registered Republicans can participate in the Iowa Republican presidential caucuses.

In New Hampshire, a total of 1,503 adults were interviewed by telephone using standard random-digit dialing methods. All respondents were asked questions concerning their registration status and basic demographics, and the entire sample was weighted to reflect statewide Census figures for gender, race, age, education and region of the state. 507 likely voters were identified based on each respondent's stated intention to participate in the 2012 primary, interest in the campaign to date, and self-reported voting history. Registered Republicans and registered independents (undeclared) can participate in the New Hampshire Republican presidential primary.

In South Carolina, a total of 1,505 adults were interviewed by telephone using standard random-digit dialing methods. All respondents were asked questions concerning their registration status and basic demographics, and the entire sample was weighted to reflect statewide Census figures for gender, race, age, education and region of the state. 510 likely voters were identified based on each respondent's stated intention to participate in the 2012 primary, interest in the campaign to date, and self-reported voting history. South Carolina has no party registration.
