- Mitt Romney

Mitt Romney ...

A Conservative Businessman Who Will Demand Fiscal Responsibility.

Repeal Obamacare.

Mitt Romney will repeal Obamacare and save taxpayers the projected \$1 trillion in costs over the next 10 years.

Cut federal spending.

A trusted conservative, Mitt Romney will bring fiscal restraint to Washington.

Reduce the size and reach of the federal government.

Mitt Romney will focus on eliminating wasteful government spending and right-sizing the federal government to save taxpayer dollars.

Strengthen Social Security and Medicare.

As President, Mitt Romney will strengthen Medicare and Social Security and ensure their long-term solvency. He will make no changes to the programs for those at or near retirement, but his reforms will guarantee that we can also keep our commitments to younger generations of Americans for the future.

Balance the budget.

Mitt Romney will place a hard cap on federal spending to force Washington politicians to do what they haven't on their own - ensure government lives within its means.

DAY ONE,
Mitt Romney will work to end Barack Obama's failed, job-killing policies of government spending, regulation, and Obamacare to get our fiscal house in order and put America on a course toward a balanced budget and true fiscal responsibility.
