Dear Mayor Bob,
As you see on tv, my name (including Gen Petraeus & Allen) and home have been exploited by the media

I wouldn't care -if they got the facts right and focus on the criminal that stalked all of us. But the truth will one day prevail.
Nonetheless, my family has been put through the ringer, and my kids are scared.
And to put insult to injury, your police dept gave the local 911 tapes to the press!
My home address and cell phone number is played on them.
I have been receiving threats all night, by people that now have my cell phone number.
I cannot understand why your dept would release my address and cell number, and make me and my daughters in harms way.

I'm not sending my daughters to school today, and my husband slept at the hospital, because its just gotten too difficult to even pull out of our own driveway. And now, I have to deal with people calling me with threats.
I'm scared and cannot believe what my City -in which I have contributed so much of my love, time, money and leadership, has now done to me and my innocent family.
Sincerely,
Jill

Bob,
Hope all is well.
Can you help out with the obstruction by the paparazzi, since they're blocking our alley, our driveway, and continue to trespass on my property.
My kids are scared, and need their "home" back.

I appreciate it.
Sincerely
Jill
