

Interviews with 620 adult Americans conducted by telephone by ORC International on December 17-18, 2012. The margin of sampling error for results based on the total sample is plus or minus 4 percentage points.

The sample includes 463 interviews among landline respondents and 157 interviews among cell phone respondents.

BASED ON 172 RESPONDENTS WHO DESCRIBE THEMSELVES AS DEMOCRATS AND 118 WHO DESCRIBE THEMSELVES AS INDEPENDENTS WHO LEAN DEMOCRATIC, FOR A TOTAL OF 290 DEMOCRATS -- SAMPLING ERROR: +/- 6\% PTS.
29. I'm going to read you the names of a few people who might run for the Democratic presidential nomination in 2016. For each one, please tell me whether you would be very likely, somewhat likely, not very likely, or not likely at all to support them if they decide to run for the Democratic nomination four years from now? (RANDOM ORDER)

|  | Very <br> likely | Somewhat <br> likely | Not very <br> likely | Not likely <br> at all | No <br> opinion |

## METHODOLOGY

A total of 620 adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, telephone usage and whether respondents own or rent their homes. Among the entire sample, $34 \%$ described themselves as Democrats, $41 \%$ described themselves as Independents, and $25 \%$ described themselves as Republicans.

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of $+/-8.5$ percentage points or less. Some subgroups represent too small a share of the national population to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups, but results for groups with a sampling error larger than $+/-8.5$ percentage points are not displayed and instead are denoted with "N/A".

CNN/ORC International Poll -- December 17 to 18, 2012
Question 30C
I'm going to read you the names of a few people who might run for the Republican presidential nomination in 2016. For each one, please tell me whether you would be very likely, somewhat likely, not very likely, or not likely at all to support them if they decide to run for the Republican nomination four years from now?
C. Former Florida Governor Jeb Bush

Base = Republicans
