QUESTION WORDING IN 1971 AND 1973: "Would you say you are satisfied or dissatisfied with the way this nation is being governed."

As you may know, on a regular basis, Congress must pass bills that authorize the federal government to spend money for a certain amount of time. When that time expires, the government must shut down until Congress passes a new spending bill.

19. Suppose the federal government had to shut down for a few days because Congress did not pass a new spending bill. Would you consider that a good thing for the country or a bad thing for the country?

METHODOLOGY

A total of 1,021 adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage. Among the entire sample, 33% described themselves as Democrats, 25% described themselves as Republicans, and 43% described themselves as Independents or members of another party

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of +/- 8.5 percentage points or less. Some subgroups represent too small a share of the national population to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups, but results for groups with a sampling error larger than +/-8.5 percentage points are not displayed and instead are denoted with "N/A".

Question 4A

We'd like to get your overall opinion of some people in the news. As I read each name, please say if you have a favorable or unfavorable opinion of these people -- or if you have never heard of them.

A. Speaker of the House John Boehner
