

United States Senate
WASHINGTON, DC 20510

April 8, 2013

Dear Senate Majority Leader Harry Reid,

We, the undersigned, intend to oppose any legislation that would infringe on the American people's constitutional right to bear arms, or on their ability to exercise this right without being subjected to government surveillance.

The Second Amendment to the Constitution protects citizens' right to self-defense. It speaks to history's lesson that government cannot be in all places at all times, and history's warning about the oppression of a government that tries.

We will oppose the motion to proceed to any legislation that will serve as a vehicle for any additional gun restrictions.
