

The logo for the CNN | ORC POLL. It features the CNN logo in a stylized, outlined font on the left, followed by a vertical bar and the letters "ORC" in a bold, sans-serif font. Below this, the word "POLL" is written in large, bold, white capital letters on a black rectangular background.

CNN | ORC POLL

Interviews with 1,010 adult Americans conducted by telephone by ORC International on January 3-5, 2014. The margin of sampling error for results based on the total sample is plus or minus 3 percentage points.

The sample includes 707 interviews among landline respondents and 303 interviews among cell phone respondents.

FOR RELEASE: TUESDAY, JANUARY 7 AT 8 PM

(Question 1 and results for marijuana and alcohol on Question 14 released on Monday)

1. Do you think the use of marijuana should be made legal, or not?

Jan. 3-5
2014

Should	55%
Should not	44%
No opinion	1%

METHODOLOGY

A total of 1,010 adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage. Among the entire sample, 30% described themselves as Democrats, 21% described themselves as Republicans, and 49% described themselves as Independents or members of another party.

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of +/- 8.5 percentage points or less. Some subgroups represent too small a share of the national population to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups, but results for groups with a sampling error larger than +/-8.5 percentage points are not displayed and instead are denoted with "N/A".
