Mike Cohen: alts are 1) here comes nati standards again
2) falls on deaf ears - states won't pick up challenge
there is some real consensus of basics - but what about tech lit?

more in social promotion framework than stds?
- nati goal

tech lit vs. computer lit

Ira: stronger if he uses this to define the role of govt
preventing the divide

Linda:
NOT what the computer looks like but what they're doing w/ it ★
Same set of tools - the computer is not the tool

me: today it may mean going on internet + doing research; tomorrow it
may mean something else

Podesta: description of what 12-yr. olds are capable of doing when they have
these tools [reliab?]

Jim: set of skills that go w/ computer that are new skills - not just clicking

Sign of IT is that they're generic - applied across econ in every ind.

Gene: No good middle school wd let a student grad w/ being able to read...

What is the carrot?

R&D - research at most fundamental + generic level w/ no specific app.
10th c. research fund - P must reaffirm strong commit. to fund invest R&D
If IT is defined broadly enough, it includes fundamental research & s
- distributed into probs

Must make clear we know distinction b/w what R the unit will fund

b/c it's not staved + not merely short-term

- long-term, high risk

- more we invest, the more priv sector invests
