

Interviews with 1,003 adult Americans conducted by telephone by ORC International on May 29-June 1, 2014. The margin of sampling error for results based on the total sample is plus or minus 3 percentage points.

The sample also includes 894 interviews among registered voters (plus or minus 3.5 percentage points)

The sample includes 702 interviews among landline respondents and 301 interviews among cell phone respondents.

BASED ON 248 RESPONDENTS WHO DESCRIBE THEMSELVES AS REPUBLICANS AND 204 WHO DESCRIBE THEMSELVES AS INDEPENDENTS WHO LEAN REPUBLICAN, FOR A TOTAL OF 452 REPUBLICANS -- SAMPLING ERROR: +/- 4.5 PERCENTAGE PTS.
26. I'm going to read a list of people who may be running in the Republican primaries for president in 2016. After I read all the names, please tell me which of those candidates you would be most likely to support for the Republican nomination for president in 2016, or if you would support someone else. Former Florida Governor Jeb Bush, New Jersey Governor Chris Christie, Texas Senator Ted Cruz, Kentucky Senator Rand Paul, Texas Governor Rick Perry, Wisconsin Congressman Paul Ryan, Florida Senator Marco Rubio, former Pennsylvania Senator Rick Santorum, former Arkansas Governor Mike Huckabee or Wisconsin Governor Scott Walker. (RANDOM ORDER)

*QUESTION WORDING: Next I'm going to read the names of some of those candidates and ask how you would feel if each of them won the Democratic presidential nomination next year. As I read each name, please tell me whether you would feel enthusiastic, satisfied but not enthusiastic, dissatisfied but not upset, or upset if that person were the Democratic nominee? (RANDOM ORDER)

## METHODOLOGY

A total of 1,003 adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage. Among the entire sample, $30 \%$ described themselves as Democrats, $23 \%$ described themselves as Republicans, and $47 \%$ described themselves as Independents or members of another party

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of $+/-8.5$ percentage points or less. Some subgroups represent too small a share of the national population to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups, but results for groups with a sampling error larger than $+/-8.5$ percentage points are not displayed and instead are denoted with "N/A".

CNN/ORC International Poll -- May 29 to June 1, 2014

Question 26
