CNN | ORC POLL

Interviews with 1,003 adult Americans conducted by telephone by ORC International on May 29-June 1, 2014. The margin of sampling error for results based on the total sample is plus or minus 3 percentage points.

The sample also includes 894 interviews among registered voters (plus or minus 3.5 percentage points)

The sample includes 702 interviews among landline respondents and 301 interviews among cell phone respondents.

29. If Hillary Clinton decides to run for president, do you think it is very likely, somewhat likely, somewhat unlikely or very unlikely that she would win the Democratic nomination in 2016?

May 29-June 1
2014

Very likely	44%
Somewhat likely	34%
Somewhat unlikely	11%
Very unlikely	10%
No opinion	1%

30. And do you think it is very likely, somewhat likely, somewhat unlikely or very unlikely that Hillary Clinton would be elected President in 2016 if she wins her party's nomination?

May 29-June 1
2014

Very likely	31%
Somewhat likely	36%
Somewhat unlikely	16%
Very unlikely	15%
No opinion	2%

2008 TRENDS FOR COMPARISON

<i>Please tell me whether you think it is very likely, somewhat likely, somewhat unlikely, or very unlikely that each of the following would be elected president in November if they win their party's nomination – Hillary Clinton?</i>	
	Jan 9-10 <u>2008</u>
Very likely	43%
Somewhat likely	31%
Somewhat unlikely	11%
Very unlikely	15%
No opinion	*

A total of 1,003 adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage. Among the entire sample, 30% described themselves as Democrats, 23% described themselves as Republicans, and 47% described themselves as Independents or members of another party

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of +/- 8.5 percentage points or less. Some subgroups represent too small a share of the national population to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups, but results for groups with a sampling error larger than +/-8.5 percentage points are not displayed and instead are denoted with "N/A".

Question 29

If Hillary Clinton decides to run for president, do you think it is very likely, somewhat likely, somewhat unlikely or very unlikely that she would win the Democratic nomination in 2016?
