\* Asked of half sample

As you may know, in recent months, tens of thousands of children from Central American countries have been detained by the U.S. government at the Mexican border after illegally entering the United States without their parents or other guardians. Here are a few questions on that topic.

29. Do you favor or oppose a bill that would respond to this situation by allocating several billion dollars to care for the children that are being detained, increase the number of officials who can determine whether they should be deported, and return them to their countries if they are not allowed to stay in the U.S.?

July 18-20  
2014

Favor	54%
Oppose	44%
No opinion	3%

30. As you may know, under current U.S. law, unaccompanied children from Central America who illegally come to the U.S. remain in the U.S. for months or years until their cases are heard by a U.S. immigration official. Do you favor or oppose a bill that would make it easier for the U.S. to depart all unaccompanied children who have entered the country illegally?

July 18-20  
2014

Favor	62%
Oppose	36%
No opinion	2%

31. Generally speaking, which of the following statements comes closer to your view about these children:

July 18-20  
2014

Most of them are refugees who are fleeing violence and poverty in their countries	51%
Most of them are illegal immigrants whose parents are trying to exploit a loophole in the U.S. immigration system.	45%
No opinion	3%

32. As you may know, the U.S. government is relocating some of these children from the border facilities where they were taken into custody while they wait for their cases to be heard by an immigration official. Would you be willing or unwilling to have some of those children relocated to a security facility in the city or town where you live until their cases are resolved?

July 18-20  
2014

Willing	57%
Unwilling	41%
No opinion	2%

## **METHODOLOGY**

A total of 1,012 adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage. Among the entire sample, 32% described themselves as Democrats, 24% described themselves as Republicans, and 44% described themselves as Independents or members of another party

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of +/- 8.5 percentage points or less. Some subgroups represent too small a share of the national population to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups, but results for groups with a sampling error larger than +/-8.5 percentage points are not displayed and instead are denoted with "N/A".

Question 6A

How important is it to you that the President and Congress deal with each of the following issues in the next year -- will it be extremely important, very important, moderately important, or not that important?

A. The economy

Question 11

What should be the main focus of the U.S. government in dealing with the issue of illegal immigration -- developing a plan that would allow illegal immigrants who have jobs to become legal U.S. residents, or developing a plan for stopping the flow of illegal immigrants into the U.S. and for deporting those already here?
