CNN | ORC POLL

Interviews with 1,018 adult Americans conducted by telephone by ORC International on October 24-26, 2014. The margin of sampling error for results based on the total sample is plus or minus 3 percentage points.

The sample also includes 921 interviews among registered voters (plus or minus 3 percentage points) and 540 interviews among likely voters (plus or minus 4 percentage points).

The sample includes 662 interviews among landline respondents and 356 interviews among cell phone respondents.

FOR RELEASE: MONDAY, OCTOBER 27 AT 7 PM

13. How important will each of the following be to your vote for Congress this year -- will it be extremely important, very important, moderately important, or not that important? (RANDOM ORDER)

	<u>Extremely important</u>	<u>Very important</u>	<u>Moderately important</u>	<u>Not that important</u>	<u>No opinion</u>

<u>SWINE FLU</u>					
2009 Oct 30-Nov 1	11%	40%	26%	23%	*
<i>QUESTION WORDING: How confident are you that the federal government can prevent a nationwide swine flu epidemic-- very confident, somewhat confident, not very confident, or not confident at all?</i>					

37. Suppose there was a case of the Ebola virus reported your community. Do you think your local hospitals, police, and emergency services are very prepared, somewhat prepared, not too prepared, or not at all prepared to respond to that?

Oct. 24-26
2014

Very prepared	16%
Somewhat prepared	37%
Not too prepared	22%
Not at all prepared	24%
No opinion	2%

38. Do you think the federal government's response to the Ebola virus should be limited to treating people in the U.S. who have the disease and preventing others in the U.S. from getting it, or should the U.S. government's response also include treating people with Ebola in African countries and preventing the disease from spreading in those countries as well as in the U.S.?

Oct. 24-26
2014

U.S. only	27%
U.S. and Africa	71%
Depends (vol.)	2%
No opinion	1%

39. Which of the following statements comes closer to your view about how the federal government should handle foreign citizens who are travelling to the U.S. from African countries where outbreaks of the Ebola virus have occurred. (ASKED OF HALF SAMPLE. RESULTS BASED ON 503 INTERVIEWS IN VERSION A -- SAMPLING ERROR: +/- 4.5 PERCENTAGE POINTS.)

Oct. 24-26
2014

The government should prevent all of them from entering the U.S.	30%
The government should screen all of them for signs that they have the Ebola virus and quarantine those who may be infected, but let those who do not show any symptoms enter the U.S.	69%
No opinion	1%

40. Which of the following statements comes closer to your view about how the federal government should handle U.S. citizens who are travelling back to the U.S. from African countries where outbreaks of the Ebola virus have occurred. (ASKED OF HALF SAMPLE. RESULTS BASED ON 515 INTERVIEWS IN VERSION B -- SAMPLING ERROR: +/- 4.5 PERCENTAGE POINTS.)

Oct. 24-26
2014

The government should prevent all of them from entering the U.S.	20%
The government should screen all of them for signs that they have the Ebola virus and quarantine those who may be infected, but let those who do not show any symptoms enter the U.S.	78%
No opinion	2%

41. If a vaccine that protects people from the Ebola virus became available, would you yourself get the shot, or not?

Oct. 24-26
2014

Yes	50%
No	48%
No opinion	2%

<u>SMALLPOX</u>			
2002 Dec 11-15	50	39	12
<i>QUESTION WORDING: If a vaccine that protects people from smallpox became available, would you yourself get the shot, or not?</i>			

METHODOLOGY

A total of 1,018 adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage. Among the entire sample, 31% described themselves as Democrats, 21% described themselves as Republicans, and 48% described themselves as Independents or members of another party

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of +/- 8.5 percentage points or less. Some subgroups represent too small a share of the national population to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups, but results for groups with a sampling error larger than +/-8.5 percentage points are not displayed and instead are denoted with "N/A".

Question 13A

How important will each of the following be to your vote for Congress this year -- will it be extremely important, very important, moderately important, or not that important?
