As you may know, on a regular basis, Congress must pass bills that authorize the federal government to spend money. When that legislation expires, the government must shut down until Congress passes a new spending bill.

21. Suppose the federal government had to shut down for a few days because Congress did not pass a new spending bill. Would you view a government shutdown that lasted a few days as a crisis, as a major problem, as a minor problem, or as not a problem at all?

METHODOLOGY

A total of 1,045 adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage. Among the entire sample, 28% described themselves as Democrats, 23% described themselves as Republicans, and 49% described themselves as Independents or members of another party

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of +/- 8.5 percentage points or less. Some subgroups represent too small a share of the national population to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups, but results for groups with a sampling error larger than +/-8.5 percentage points are not displayed and instead are denoted with "N/A".

CNN/ORC International Poll -- November 21 to 23, 2014 Question $\boldsymbol{6}$

As you know, in the election which was held earlier this month, the Republicans won control of the U.S. Senate and maintained control of the U.S. House of Representatives while gaining about 10 seats in the House. Do you think the Republican victories in the election races are more of a mandate for Republican policies or more a rejection of Democratic policies?
