

Interviews with 1,027 adult Americans conducted by telephone by ORC International on February 12-15, 2015. The margin of sampling error for results based on the total sample is plus or minus 3 percentage points. Results in this document labeled “All Americans” or “Total” are based on this sample of 1,027 adults. This sample includes 626 interviews among landline respondents and 401 interviews among cell phone respondents.

Additional interviews were conducted among African-Americans, and combined with the African-Americans contacted in the initial sample of 1,027 for a total of 309 African-American respondents. The margin of sampling error for results based on this sample of African-Americans is plus or minus 5.5 percentage points.

Columns in this document labeled "Whites" show results only for the 733 respondents in the initial sample who described themselves as white in a question on racial background and did not describe themselves as Hispanic or Latino in a separate question on ethnicity. (Sampling error for non-Hispanic whites is +/-3.5 percentage points.) Columns in this document labeled "Blacks" refer to all respondents who described themselves as black or African-American and did not describe themselves as Hispanic or Latino in a separate question on ethnicity.

Trend results for racial groups are shown only for polls which had enough African-American respondents to produce statistically valid results.

1999 Mar 25	60%	37%	3%
<i>QUESTION WORDING: Overall, do you trust Bill Clinton as commander-in-chief of the armed forces, or not?</i>			

Now here are a few questions about the Islamic militant group often referred to as ISIS that controls some areas of Iraq and Syria. The group is also sometimes referred to as ISIL or as the Islamic State. As you may know, the U.S. has conducted air strikes against ISIS forces in Iraq and in Syria, but there are no U.S. combat troops fighting ISIS forces in either country.

7. President Obama has asked Congress for the authority to continue to use military force against ISIS. Do you think he was right to ask Congress for that authority or should he have the option of continuing to use military force against ISIS without authorization from Congress?

Feb. 12-15
2015

Right to ask for authority	77%
Military force without authorization	21%

Thinking about the situation in the country of Ukraine, where Russian troops have occupied an area of Ukraine called the Crimean peninsula and pro-Russian militants have taken control of government buildings in several areas in the eastern part of Ukraine.

29A. How likely do you think it is that both sides will abide by the recently announced ceasefire agreement between Ukraine and Russia -- very likely, somewhat likely, not too likely, or not likely at all?

Feb 12-15
2015

Very likely	5%
Somewhat likely	29%
Not too likely	38%
Not likely at all	27%
No opinion	2%

30. Do you favor or oppose allowing private citizens to fly small unmanned drones in each of the following settings: (RANDOM ORDER)

	<u>Favor</u>	<u>Oppose</u>	<u>No opinion</u>
In urban areas	25%	74%	1%
In suburban areas	25%	74%	1%
In rural areas	51%	48%	1%
In national parks	36%	63%	1%

METHODOLOGY

A total of 1,027 adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. Among the entire sample, 29% described themselves as Democrats, 23% described themselves as Republicans, and 48% described themselves as Independents or members of another party

In addition 172 interviews were conducted with African-Americans drawn from a separate sample of landline telephone numbers in areas where at least 30% of households are African American.

All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage.

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of +/- 8.5 percentage points or less. Some subgroups represent too small a share of the national population to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups, but results for groups with a sampling error larger than +/-8.5 percentage points are not displayed and instead are denoted with "N/A".
