Dec. 18-21, 2014	60%	35%	1%	3%	1%

METHODOLOGY

A total of 1,018 adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. Among the entire sample, 27% described themselves as Democrats, 21% described themselves as Republicans, and 52% described themselves as Independents or members of another party

All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage.

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of +/- 8.5 percentage points or less. Some subgroups represent too small a share of the national population to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups, but results for groups with a sampling error larger than +/-8.5 percentage points are not displayed and instead are denoted with "N/A".

Question 15
I'm going to read a list of people who may be running in the Republican primaries for president in 2016. After I read all the names, please tell me which of those candidates you would be most likely to support for the Republican nomination for president in 2016, or if you would support someone else.

CNN/ORC International Poll -- April 16 to 19, 2015

Question 18

I'm going to read a list of people who may be running in the Democratic primaries for president in 2016. After I read all the names, please tell me which of those candidates you would be most likely to support for the Democratic nomination for president in 2016, or if you would support someone else.

Base = Democrats
