

Interviews with 1,025 adult Americans conducted by telephone by ORC International on May 29 - 31, 2015. The margin of sampling error for results based on the total sample is plus or minus 3 percentage points.

This sample includes 621 interviews among landline respondents and 404 interviews among cell phone respondents.

Now here are a few questions about the Islamic militant group often referred to as ISIS that controls some areas of Iraq and Syria. The group is also sometimes referred to as ISIL or as the Islamic State. As you may know, the U.S. has conducted air strikes against ISIS forces in Iraq and in Syria, but there are no U.S. combat troops fighting ISIS forces in either country.

14. In general, how would you say things are going for the U.S. in its military action against ISIS forces in Iraq and Syria -- very well, moderately well, moderately badly, or very badly?

QUESTION WORDING: Just your best guess, do you think there are terrorists associated with Osama bin Laden who are currently in the United States and have the resources to launch a major terrorist attack against the U.S. at any time, or not?

METHODOLOGY

A total of 1,025 adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. Among the entire sample, 27% described themselves as Democrats, 21% described themselves as Republicans, and 52% described themselves as independents or members of another party

All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage.

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of +/- 8.5 percentage points or less. Some subgroups represent too small a share of the national population to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups, but results for groups with a sampling error larger than +/-8.5 percentage points are not displayed and instead are denoted with "N/A".
