

Interviews with 1,017 adult Americans conducted by telephone by ORC International on June 26-28, 2015. The margin of sampling error for results based on the total sample is plus or minus 3 percentage points. Results in this document labeled “All Americans” or “Total” are based on this sample of 1,017 adults. The sample also includes 890 interviews among registered voters (plus or minus 3.5 percentage points). The full sample includes 611 interviews among landline respondents and 406 interviews among cell phone respondents.

Additional interviews were conducted among African-Americans, and combined with the African-Americans contacted in the initial sample of 75 for a total of 303 African-American respondents. The margin of sampling error for results based on this sample of African-Americans is plus or minus 5.5 percentage points.

Columns in this document labeled "Whites" show results only for the 727 respondents in the initial sample who described themselves as white in a question on racial background and did not describe themselves as Hispanic or Latino in a separate question on ethnicity. (Sampling error for non-Hispanic whites is +/-3.5 percentage points.) Columns in this document labeled "Blacks" refer to all respondents who described themselves as black or African-American and did not describe themselves as Hispanic or Latino in a separate question on ethnicity.

Trend results for racial groups are shown only for polls which had enough African-American respondents to produce statistically valid results.

Now here are some questions about the shootings which occurred in Charleston, South Carolina in which Dylann Roof shot nine people during a bible study in a historically black church.

19. Which of the following statements comes closer to your overall view -- (RANDOM ORDER)

	All <u>Americans</u>	<u>Blacks</u>	<u>Whites</u>
Government and society can take action that will be effective in preventing shootings like the one in Charleston from happening again	35%	37%	34%
Shootings like the one in Charleston will happen again regardless of what action is taken by government and society	64%	62%	64%
No opinion	2%	1%	3%

FOR COMPARISON

	Dec. 17-18 <u>2012</u>	Jan. 14-16 <u>2011</u>
Government and society can take action that will be effective in preventing shootings like the one in Connecticut from happening again	46%	33%
Shootings like the one in Connecticut will happen again regardless of what action is taken by government and society	53%	66%
No opinion	2%	1%

NOTE: Question wordings in January 2011 referred to "the shootings which occurred in Tucson Arizona, in which Jared Loughner allegedly shot a congresswoman and 18 other people", and in December 2012 referred to "the shootings which occurred recently in an elementary school in Connecticut".

20. Has the shooting in Charleston made you more likely or less likely to challenge someone expressing racist views or opinions, or has it not made any difference in how you would respond to racism?

	<u>More likely</u>	<u>Less likely</u>	<u>No difference</u>	<u>No opinion</u>
June 26-28, 2015				
All Americans	28%	4%	67%	1%
<i>Blacks</i>	34%	4%	62%	*
<i>Whites</i>	28%	2%	68%	2%

34. Do you know anyone who you would consider a racist or not?

	<u>Yes</u>	<u>No</u>	<u>No opinion</u>
June 26-28, 2015			
All Americans	46%	51%	3%
<i>Blacks</i>	35%	57%	7%
<i>Whites</i>	50%	48%	2%
Dec. 5-7, 2006			
All Americans	44%	55%	*
<i>Blacks</i>	48%	51%	1%
<i>Whites</i>	43%	56%	*

METHODOLOGY

A total of 1,017 adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. Among the entire sample, 28% described themselves as Democrats, 23% described themselves as Republicans, and 49% described themselves as Independents or members of another party

In addition 252 interviews were conducted with African-Americans drawn from a separate sample of landline telephone numbers in areas where at least 30% of households are African American.

All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage.

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of +/- 8.5 percentage points or less. Some subgroups represent too small a share of the national population to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups, but results for groups with a sampling error larger than +/-8.5 percentage points are not displayed and instead are denoted with "N/A".

Question 1

Do you approve or disapprove of the way Barack Obama is handling his job as president?

Base = Total Sample

	Total	Men	Women	White	Non-White	Reg. Voters
