METHODOLOGY

A total of 2,009 Iowa adults were interviewed by telephone statewide by live interviewers calling both landline and cellphones. All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect statewide Census figures for gender, race, age, education and region of the state.

Respondents were asked questions about whether they are registered to vote, their likelihood of voting, past voting behavior, and interest in the campaign. Based on the answers to those questions, 1,046 respondents were classified as likely caucus-goers, including 548 who were likely to participate in the Republican presidential caucus and 498 who were likely to participate in the Democratic presidential caucus.

The Iowa regions are composed of the following counties: the "East" region is composed of Cedar, Clinton, Dubuque, Jackson, Johnson, Jones, Linn, Muscatine and Scott counties; the "East Central" region is composed of Allamakee, Benton, Black Hawk, Bremer, Buchanan, Butler, Chickasaw, Clayton, Delaware, Des Moines, Fayette, Floyd, Grundy, Henry, Howard, Iowa, Jefferson, Keokuk, Lee, Louisa, Mitchell, Poweshiek, Tama, Van Buren, Wapello, Washington and Winneshiek counties; the "Des Moines Area" region is composed of Dallas, Madison, Polk, Story and Warren counties; the "Central" region is composed of Adair, Appanoose, Boone, Calhoun, Carroll, Cerro Gordo, Clarke, Davis, Decatur, Franklin, Greene, Guthrie, Hamilton, Hancock, Hardin, Humboldt, Jasper, Kossuth, Lucas, Mahaska, Marion, Marshall, Monroe, Palo Alto, Pocahontas, Ringgold, Union, Wayne, Webster, Winnebago, Worth and Wright counties; and the "West" region is composed of Adams, Audubon, Buena Vista, Cass, Cherokee, Clay, Crawford, Dickinson, Fremont, Harrison, Ida, Lyon, Mills, Monona, Montgomery, O'Brien, Osceola, Page, Plymouth, Pottawattamie, Sac, Shelby, Sioux, Taylor and Woodbury counties.

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of +/- 8.5 percentage points or less. Some subgroups represent too small a share of the population of Iowa to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups but results for groups with a sampling error larger than +/-8.5 percentage points are not displayed.
If the Republican presidential caucus in Iowa were held today, please tell me which of the following people you would be most likely to support.

Question R3a
Now I’m going to mention a few issues and for each one, please tell me which Republican candidate you think would best handle that issue if he or she were elected President. Please feel free to name a candidate even if you may not be voting for that person. Which Republican candidate do you think would do the best job handling:

A. The economy

Question DM3e
Now I'm going to mention a few issues and for each one, please tell me who you think would best handle that issue if he or she were elected President. Please feel free to name a candidate even if you may not be voting for that person. Which Democratic candidate do you think would do the best job handling:

**E. Climate change**

**Base = Democratic likely caucus goers**
