To Whom My Concern:

I have been the personal physician of Mr. Donald J. Trump since 1980. His previous physician was my father, Dr. Jacob Bornstein. Over the past 39 years, I am pleased to report that Mr. Trump has had no significant medical problems. Mr. Trump has had a recent complete medical examination that showed only positive results. Actually, his blood pressure, 110/65, and laboratory test results were astonishingly excellent.

Over the past twelve months, he has lost at least fifteen pounds. Mr. Trump takes 81 mg of aspirin daily and a low dose of a statin. His PSA test score is 0.15 (very low). His physical strength and stamina are extraordinary.

Mr. Trump has suffered no form of cancer, has never had a hip, knee or shoulder replacement or any other orthopedic surgery. His only surgery was an appendectomy at age ten. His cardiovascular status is excellent. He has no history of ever using alcohol or tobacco products.

If elected, Mr. Trump, I can state unequivocally, will be the healthiest individual ever elected to the presidency.
