Florida

Interviews with 1,014 adult Floridians conducted by telephone by ORC International on March 2 - 6, 2016. The margin of sampling error for results based on the total sample is plus or minus 3 percentage points.

The sample includes 854 who are registered to vote, 313 who were likely to vote in the Republican presidential primary and 264 who were likely to vote in the Democratic presidential primary.

This sample includes 614 interviews among landline respondents and 400 interviews among cell phone respondents.

METHODOLOGY

A total of 1,014 Florida adults were interviewed by telephone statewide by live interviewers calling both landline and cellphones. All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect statewide Census figures for gender, race, age, education and region of the state.

This sample includes 614 interviews among landline respondents and 400 interviews among cell phone respondents.

Respondents were asked questions about whether they are registered to vote, their likelihood of voting, past voting behavior, and interest in the campaign. Based on the answers to those questions, 609 respondents were classified as likely voters, including 313 who were likely to participate in the Republican presidential primary and 264 who were likely to participate in the Democratic presidential primary.

The Florida regions are composed of the following counties: the "North" region is composed of Alachua, Baker, Bay, Bradford, Calhoun, Clay, Columbia, Dixie, Duval, Escambia, Flagler, Franklin, Gadsden, Gilchrist, Gulf, Hamilton, Holmes, Jackson, Jefferson, Lafayette, Leon, Liberty, Madison, Nassau, Okaloosa, Putnam, St. Johns, Santa Rosa, Suwannee, Taylor, Union, Wakulla, Walton and Washington counties; the "Central Atlantic" region is composed of Brevard, Indian River, Martin, Orange, Osceola, St. Lucie, Seminole and Volusia counties; the "Tampa Bay Area" region is composed of Hillsborough, Manatee, Pasco and Pinellas counties, the "Gulf Coast/Mid-Florida" regions composed of Charlotte, Citrus, Collier, De Soto, Glades, Hardee, Hendry, Hernando, Highlands, Lake, Lee Levy, Marion, Okeechobee, Polk, Sarasota and Sumter counties and the "Miami/Southern Florida" region composed of Broward, Miami-Dade, Monroe and Palm Beach counties.

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of +/- 8.5 percentage points or less. Some subgroups represent too small a share of the population of Florida to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups but results for groups with a sampling error larger than +/-8.5 percentage points are not displayed.
