

## NORTH CAROLINA

In North Carolina, interviews with 1,009 adult Americans conducted by telephone by ORC International on August 18-23, 2016. The margin of sampling error for results based on the total sample is plus or minus 3 percentage points.

The North Carolina sample also includes 912 interviews among registered voters (plus or minus 3.5 percentage points) and 803 interviews among likely voters (plus or minus 3.5 percentage points).

In North Carolina, 609 interviews were conducted among landline respondents and 400 interviews among cell phone respondents.

## EMBARGOED FOR RELEASE: <br> Wednesday, August 24 at 4:00 p.m.

Q1. (P1) Suppose that the presidential election were being held today and you had to choose between Hillary Clinton and Tim Kaine as the Democratic Party's candidates, and Donald Trump and Mike Pence as the Republican Party's candidates. Who would you be more likely to vote for? (RANDOM ORDER)
Q1a. (P1a) (IF NEITHER OR DON'T KNOW) As of today, do you lean more toward --?

|  | Clinton/ <br> Kaine | Trump/ <br> Pence | Other <br> (vol.) | Neither <br> (vol.) | No <br> opinion |

## METHODOLOGY

A total of 1,009 North Carolina adults were interviewed by telephone statewide by live interviewers calling both landline and cellphones. All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect statewide Census figures for gender, race, age, education and region of the state.

This sample includes 609 interviews among landline respondents and 400 interviews among cell phone respondents.
Respondents were asked questions about whether they are registered to vote, their likelihood of voting, past voting behavior, and interest in the campaign. Based on the answers to those questions, 803 respondents were classified as likely voters. Among those likely voters, 292 described themselves as Democrats, 270 described themselves as Independents, and 241 described themselves as Republicans

In the North Carolina crosstabs, the state regions are composed of the following counties: the "East" region is composed of Beaufort, Bertie, Bladen, Brunswick, Camden, Carteret, Chowan, Columbus, Craven, Cumberland, Currituck, Dare, Duplin, Edgecombe, Gates, Greene, Halifax, Harnett, Hertford, Hyde, Jones, Lenoir, Martin, Nash, New Hanover, Northampton, Onslow, Pamlico, Pasquotank, Pender, Perquimans, Pitt, Robeson, Sampson, Tyrrell, Washington, Wayne and Wilson counties; the "Raleigh-Durham Triangle" region is composed of Chatham, Durham, Franklin, Granville, Johnston, Orange, Person, Vance, Wake and Warren counties; the "Charlotte Area" region is composed of Cabarrus, Gaston, Lincoln, Mecklenburg and Union counties; the "Piedmont/Central" region is composed of Alamance, Anson, Caswell, Davidson, Davie, Forsyth, Guilford, Hoke, Lee, Montgomery, Moore, Randolph, Richmond, Rockingham, Rowan, Scotland, Stanly and Stokes counties; and the "West" region is composed of Alexander, Alleghany, Ashe, Avery, Buncombe, Burke, Caldwell, Catawba, Cherokee, Clay, Cleveland, Graham, Haywood, Henderson, Iredell, Jackson, McDowell, Macon, Madison, Mitchell, Polk, Rutherford, Surry, Swain, Transylvania, Watauga, Wilkes, Yadkin and Yancey counties.

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of $+/-8.5$ percentage points or less. Some subgroups represent too small a share of the population of North Carolina to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups but results for groups with a sampling error larger than $+/-8.5$ percentage points are not displayed.
