

Interviews with 1,001 adult Americans conducted by telephone by ORC International on September 1-4, 2016. The margin of sampling error for results based on the total sample is plus or minus 3 percentage points.

The sample also includes 886 interviews among registered voters (plus or minus 3.5 percentage points), and 786 interviews among likely voters (plus or minus 3.5 percentage points).

This sample includes 601 interviews among landline respondents and 400 interviews among cell phone respondents.

**EMBARGOED FOR RELEASE:
Friday, Sept. 9 at 6:00 a.m.**

Q30. How likely is it that there will be acts of terrorism in the United States in the days around September 11th this year -- very likely, somewhat likely, not too likely, or not likely at all?

	Sept. 1-4 2016	Sept. 5-7 2014	Aug. 24-25 2011
Very likely	12%	15%	9%
Somewhat likely	38%	38%	30%
Not too likely	31%	32%	41%
Not likely at all	17%	14%	19%
No opinion	2%	1%	*

No question 31

Q32. How often do you think about what happened on September 11th, 2001 -- every day, several times a week, a few times a month, hardly ever, or don't you think about it at all?

	Sept. 1-4 2016	Aug. 24-25 2011 [^]
Every day	8%	5%
Several times a week	10%	12%
A few times a month	45%	47%
Hardly ever	32%	33%
Don't think about it at all	5%	2%
No opinion	*	*

[^]Asked of a half sample.

METHODOLOGY

A total of 1,001 adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. Among the entire sample, 32% described themselves as Democrats, 28% described themselves as Republicans, and 40% described themselves as independents or members of another party.

All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage.

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of +/- 8.5 percentage points or less. Some subgroups represent too small a share of the national population to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups, but results for groups with a sampling error larger than +/-8.5 percentage points are not displayed and instead are denoted with "NA".

Question 30

How likely is it that there will be acts of terrorism in the United States in the days around September 11th this year -- very likely, somewhat likely, not too likely, or not likely at all?
