

## Florida

Interviews with $\mathbf{1 , 0 0 3}$ adult Floridians conducted by telephone by ORC International on September 7-12, 2016. The margin of sampling error for results based on the total sample is plus or minus 3 percentage points.

The Florida sample also includes 886 interviews among registered voters (plus or minus 3.5 percentage points) and 788 interviews among likely voters (plus or minus 3.5 percentage points).

In Florida, 603 interviews were conducted among landline respondents and 400 interviews among cell phone respondents.

## EMBARGOED FOR RELEASE:

Wednesday, Sept. 14 at 4:00 p.m.

BASED ON 879 REGISTERED VOTERS AND 7 WHO PLAN TO REGISTER, FOR A TOTAL OF 886 REGISTERED VOTERS -- SAMPLING ERROR: +/- 3.5 PERCENTAGE PTS.

Q1. (P5) Now suppose that the presidential candidates on the ballot in your state included Hillary Clinton as the Democratic Party's candidate, Donald Trump as the Republican Party's candidate, Gary Johnson as the Libertarian Party candidate, and Jill Stein as the Green Party candidate, who would you be more likely to vote for? (RANDOM ORDER)
Q1a. (P5a) (IF NONE OR DON'T KNOW) As of today, do you lean more toward --?

## METHODOLOGY

A total of 1,003 Florida adults were interviewed by telephone statewide by live interviewers calling both landline and cellphones. All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect statewide Census figures for gender, race, age, education and region of the state. Interviews were conducted in English or Spanish depending on the respondent's preference.

This sample includes 603 interviews among landline respondents and 400 interviews among cell phone respondents.
Respondents were asked questions about whether they are registered to vote, their likelihood of voting, past voting behavior, and interest in the campaign. Based on the answers to those questions, 788 respondents were classified as likely voters. Among those likely voters, $33 \%$ described themselves as Democrats, $32 \%$ described themselves as Republicans and $35 \%$ described themselves as independents or members of another party. For the sample of registered voters, $38 \%$ said they were registered as Democrats, $37 \%$ registered as Republicans, $23 \%$ registered with no party and $2 \%$ with another party.

The Florida regions are composed of the following counties: the "North" region is composed of Alachua, Baker, Bay, Bradford, Calhoun, Clay, Columbia, Dixie, Duval, Escambia, Flagler, Franklin, Gadsden, Gilchrist, Gulf, Hamilton, Holmes, Jackson, Jefferson, Lafayette, Leon, Liberty, Madison, Nassau, Okaloosa, Putnam, St. Johns, Santa Rosa, Suwannee, Taylor, Union, Wakulla, Walton and Washington counties; the "Orlando/Central Atlantic" region is composed of Brevard, Indian River, Martin, Orange, Osceola, St. Lucie, Seminole and Volusia counties; the "Tampa Bay" region is composed of Hillsborough, Manatee, Pasco and Pinellas counties, the "Central/Gulf Coast" regions composed of Charlotte, Citrus, Collier, De Soto, Glades, Hardee, Hendry, Hernando, Highlands, Lake, Lee Levy, Marion, Okeechobee, Polk, Sarasota and Sumter counties and the "Miami/South Florida" region composed of Broward, Miami-Dade, Monroe and Palm Beach counties.

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of $+/-8.5$ percentage points or less. Some subgroups represent too small a share of the population of Florida to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups but results for groups with a sampling error larger than $+/-8.5$ percentage points are not displayed.
