

## Colorado

Interviews with 1,010 adult Coloradans conducted by telephone by ORC International on September 20-25, 2016. The margin of sampling error for results based on the total sample is plus or minus 3 percentage points.

The Colorado sample also includes 896 interviews among registered voters (plus or minus 3.5 percentage points) and 784 interviews among likely voters (plus or minus 3.5 percentage points).

In Colorado, 507 interviews were conducted among landline respondents and 503 interviews among cell phone respondents.

## EMBARGOED FOR RELEASE: Monday, Sept. 26 at 6:00 a.m.

BASED ON 892 REGISTERED VOTERS AND 4 WHO PLAN TO REGISTER, FOR A TOTAL OF 896 REGISTERED VOTERS -- SAMPLING ERROR: +/- 3.5 PERCENTAGE PTS.

Q1. (P5) Suppose that the presidential election were being held today and you had to choose between Hillary Clinton and Tim Kaine as the Democratic Party's candidates, Donald Trump and Mike Pence as the Republican Party's candidates, Gary Johnson and Bill Weld as the Libertarian Party's candidates, and Jill Stein and Ajamu Baraka as the Green Party's candidates. Who would you be more likely to vote for? (RANDOM ORDER)
Q1a. (P5a) (IF NONE OR DON'T KNOW) As of today, do you lean more toward --?

## METHODOLOGY

A total of 1,010 Colorado adults were interviewed by telephone statewide by live interviewers calling both landline and cellphones. All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect statewide Census figures for gender, race, age, education and region of the state.

This sample includes 507 interviews among landline respondents and 503 interviews among cell phone respondents.
Respondents were asked questions about whether they are registered to vote, their likelihood of voting, past voting behavior, and interest in the campaign. Based on the answers to those questions, 784 respondents were classified as likely voters. Among those likely voters, $25 \%$ described themselves as Democrats, $27 \%$ described themselves as Republicans and $48 \%$ described themselves as independents or members of another party. For the sample of registered voters, $31 \%$ said they were registered as Democrats, $32 \%$ registered as Republicans, $35 \%$ registered with no party and $2 \%$ with another party.

The Colorado regions are composed of the following counties: the "East" region is composed of Baca, Bent, Cheyenne, Crowley, Huerfano, Kiowa, Kit Carson, Larimer, Las Animas, Lincoln, Logan, Morgan, Otero, Phillips, Prowers, Pueblo, Sedgwick, Washington, Weld and Yuma counties; the "Denver/E Suburbs" region is composed of Adams, Arapahoe and Denver counties; the "W Suburbs/Boulder" region is composed of Boulder, Broomfield, Clear Creek, Gilpin and Jefferson counties; the "Southern/Front Range" region is composed of Douglas, Elbert, El Paso and Teller counties and the "Colorado Rockies" region is composed of Alamosa, Archuleta, Chaffee, Conejos, Costilla, Custer, Delta, Dolores, Eagle, Fremont, Garfield, Grand, Gunnison, Hinsdale, Jackson, Lake, La Plata, Mesa, Mineral, Moffat, Montezuma, Montrose, Ouray, Park, Pitkin, Rio Blanco, Rio Grande, Routt, Saguache, San Juan, San Miguel and Summit counties.

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of $+/-8.5$ percentage points or less. Some subgroups represent too small a share of the population of Colorado to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups but results for groups with a sampling error larger than $+/-8.5$ percentage points are not displayed.

```
Question P5
```

Suppose that the presidential election were being held today and you had to
choose between Hillary Clinton and Tim Kaine as the Democratic Party's
candidates, Donald Trump and Mike Pence as the Republican Party's candidates,
