## **METHODOLOGY**

A total of 521 adult registered voters who watched the debate were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. Among the entire sample, 41% described themselves as Democrats, 26% described themselves as Republicans, and 33% described themselves as independents or members of another party.

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of +/- 8.5 percentage points or less. Some subgroups represent too small a share of the national population to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups, but results for groups with a sampling error larger than +/-8.5 percentage points are not displayed and instead are denoted with "NA".
