Ohio

Interviews with 1,009 adult Ohioans conducted by telephone by ORC International on October 10-15, 2016. The margin of sampling error for results based on the total sample is plus or minus 3 percentage points.

The Ohio sample also includes 890 interviews among registered voters (plus or minus 3.5 percentage points) and 774 interviews among likely voters (plus or minus 3.5 percentage points).

In Ohio, 508 interviews were conducted among landline respondents and 501 interviews among cell phone respondents.

EMBARGOED FOR RELEASE:
Monday, October 17 at noon
Q1. (P5) Suppose that the presidential election were being held today and you had to choose between Hillary Clinton and Tim Kaine as the Democratic Party’s candidates, Donald Trump and Mike Pence as the Republican Party’s candidates, Gary Johnson and Bill Weld as Independent candidates, and Jill Stein and Ajamu Baraka as the Green Party’s candidates. Who would you be more likely to vote for? (RANDOM ORDER)

Q1a. (P5a) (IF NONE OR DON’T KNOW) As of today, do you lean more toward --?

Q12. How much have you heard or read about a 2005 video in which Donald Trump makes sexually aggressive remarks—a great deal, a fair amount, just a little, or nothing at all?

Oct. 10-15
2016

- A great deal: 53%
- A fair amount: 25%
- Just a little: 13%
- Nothing at all: 8%
- No opinion: *

Q13. Do you think that Trump’s remarks in the video reflect his views about women generally or do you think they do not reflect those views?

Oct. 10-15
2016

- Yes, reflect views: 54%
- No, do not reflect views: 41%
- No opinion: 5%
METHODOLOGY

A total of 1,009 Ohio adults were interviewed by telephone statewide by live interviewers calling both landline and cellphones. All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect statewide Census figures for gender, race, age, education and region of the state.

This sample includes 508 interviews among landline respondents and 501 interviews among cell phone respondents.

Respondents were asked questions about whether they are registered to vote, their likelihood of voting, past voting behavior, and interest in the campaign. Based on the answers to those questions, 774 respondents were classified as likely voters. Among those likely voters, 34% described themselves as Democrats, 32% described themselves as Republicans and 34% described themselves as independents or members of another party.

The Ohio regions are composed of the following counties: the "Cleveland Area" region is composed of Cuyahoga, Lake and Lorain counties; the "North" region is composed of Ashtabula, Defiance, Erie, Fulton, Geauga, Henry, Huron, Lucas, Mahoning, Medina, Ottawa, Portage, Sandusky, Stark, Summit, Trumbull, Wayne, Williams, and Wood counties; the "Ohio Valley/West" region is composed of Adams, Allen, Ashland, Athens, Auglaize, Belmont, Brown, Carroll, Champaign, Clark, Clermont, Clinton, Columbiana, Coshhocton, Crawford, Darke, Fayette, Gallia, Guernsey, Hancock, Hardin, Harrison, Highland, Hocking, Holmes, Jackson, Jefferson, Lawrence, Logan, Meigs, Mercer, Monroe, Morgan, Muskingum, Noble, Paulding, Perry, Pike, Putnam, Richland, Ross, Scioto, Seneca, Shelby, Tuscarawas, Van Wert, Vinton, Washington, and Wyandot counties, the “Columbus Area” regions composed of Delaware, Fairfield, Franklin, Knox, Licking, Madison, Marion, Pickaway and Union counties and the “Cincinnati/Dayton Area” region is composed of Butler, Greene, Hamilton, Miami, Montgomery, Preble and Warren counties.

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of +/- 8.5 percentage points or less. Some subgroups represent too small a share of the population of Ohio to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups but results for groups with a sampling error larger than +/-8.5 percentage points are not displayed.
**Ohio CNN/ORC International Poll -- October 10 to 15, 2016**

**Question P5/P5A**

P5. Suppose that the presidential election were being held today and you had to choose between Hillary Clinton and Tim Kaine as the Democratic Party’s candidates, Donald Trump and Mike Pence as the Republican Party’s candidates, Gary Johnson and Bill Weld as the Independent Party’s candidates and Jill Stein and Ajamu Baraka as the Green Party’s candidates. Who would you be more likely to vote for?

P5a. As of today, do you lean more toward...

**Base = Likely voters**

Question P1/P1A
P1. Now suppose that the presidential candidates on the ballot in your state included only Hillary Clinton as the Democratic Party’s candidate and Donald Trump as the Republican Party’s candidate, who would you be more likely to vote for?

P1A. As of today, do you lean more toward...

Base = Registered voters

Ohio CNN/ORC International Poll -- October 10 to 15, 2016

Question FV1DJT
We'd like to get your overall opinion of some people in the news. As I read each name, please say if you have a favorable or unfavorable opinion of these people -- or if you have never heard of them.

DJT: Donald Trump

Base = Registered voters
