QUESTION WORDING LATE JULY: Suppose that the presidential election were being held today and you had to choose between Hillary Clinton and Tim Kaine as the Democratic Party's candidates, and Donald Trump and Mike Pence as the Republican Party's candidates. Who would you be more likely to vote for?

QUESTION WORDING FOR JULY 13-16, 2016: Suppose that the presidential election were being held today and you had to choose between Hillary Clinton as the Democratic Party's candidate, and Donald Trump as the Republican Party's candidate. Who would you be more likely to vote for --?

QUESTION WORDING PRIOR TO JUNE 2016: If Hillary Clinton were the Democratic Party's candidate and Donald Trump were the Republican Party's candidate, who would you be more likely to vote for --?

FOR COMPARISON:

For the next few questions, let's assume that former Secretary of State Hillary Clinton will be the Democratic presidential nominee in 2016. I'm going to read the names of a few Republicans who may run for their party's nomination. After I read each one, please tell me if you would be more likely to vote for that Republican candidate or if you would be more likely to vote for Hillary Clinton. (RANDOM ORDER)

QUESTION WORDING: (A book has just been published with new information concerning allegations about Bill Clinton’s behavior before becoming President.) The book alleges that, [Clinton used Arkansas troopers while he was governor to help obtain women for extra-marital affairs]. Do you think this is an important indicator of Clinton’s character and ability to serve as President, or is it not relevant to Clinton’s ability to serve as President?

METHODOLOGY

A total of 1,017 adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. Among the entire sample, 31% described themselves as Democrats, 26% described themselves as Republicans, and 43% described themselves as independents or members of another party.

All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage.

Respondents were asked questions about whether they are registered to vote, their likelihood of voting, past voting behavior, and interest in the campaign. Based on the answers to those questions, 779 respondents were classified as likely voters. Among those likely voters, 37% described themselves as Democrats, 30% described themselves as Republicans and 33% described themselves as independents or members of another party.

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of +/- 8.5 percentage points or less. Some subgroups represent too small a share of the national population to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups, but results for groups with a sampling error larger than +/-8.5 percentage points are not displayed and instead are denoted with "NA".
