

## Nevada

Interviews with 1,005 adult Nevadans conducted by telephone by ORC International on October 27 - November 1, 2016. The margin of sampling error for results based on the total sample is plus or minus 3 percentage points.

The Nevada sample also includes 860 interviews among registered voters (plus or minus 3.5 percentage points) and 790 interviews among likely voters (plus or minus 3.5 percentage points).

In Nevada, 505 interviews were conducted among landline respondents and 500 interviews among cell phone respondents.

## EMBARGOED FOR RELEASE: Wednesday, November 2 at noon

Q1. (P5) Suppose that the presidential election were being held today and you had to choose between Hillary Clinton and Tim Kaine as the Democratic Party's candidates, Donald Trump and Mike Pence as the Republican Party's candidates, and Gary Johnson and Bill Weld as the Libertarian Party's candidates. Who would you be more likely to vote for? (RANDOM ORDER)
Q1a. (P5a) (IF NONE OR DON'T KNOW) As of today, do you lean more toward --?

|  | Clinton <br> Kaine | Trump/ Pence | Johnson/ Weld | None of these candidates (vol.) | $\begin{aligned} & \text { Other } \\ & \text { (vol.) } \end{aligned}$ | No opinion |

## METHODOLOGY

A total of 1,005 Nevadans adults were interviewed by telephone statewide by live interviewers calling both landline and cellphones. All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect statewide Census figures for gender, race, age, education and region of the state. Interviews were conducted in English or Spanish depending on the respondent's preference.

This sample includes 505 interviews among landline respondents and 500 interviews among cell phone respondents.
Respondents were asked questions about whether they are registered to vote, their likelihood of voting, past voting behavior, and interest in the campaign. Based on the answers to those questions, 790 respondents were classified as likely voters. Among those likely voters, $33 \%$ described themselves as Democrats, $26 \%$ described themselves as Republicans and $41 \%$ described themselves as independents or members of another party. For the sample of registered voters, $38 \%$ said they were registered as Democrats, $30 \%$ registered as Republicans, $29 \%$ registered with no party and $3 \%$ registered with another party.

The Nevada regions are composed of the following counties: the "Washoe County" region is composed of Washoe County; the "Clark County" region is composed of Clark County; the "Rest of State" region is composed of Churchill, Douglas, Elko, Esmeralda, Eureka, Humboldt, Lander, Lincoln, Lyon, Mineral, Nye, Pershing, Storey, White Pine and Carson City counties.

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of $+/-8.5$ percentage points or less. Some subgroups represent too small a share of the population of Nevada to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups but results for groups with a sampling error larger than $+/-8.5$ percentage points are not displayed.

Question P5
Suppose that the presidential election were being held today and you had to choose between Hillary Clinton and Tim Kaine as the Democratic Party's candidates, Donald Trump and Mike Pence as the Republican Party's candidates, Gary Johnson and Bill Weld as the Libertarian Party's candidates.
