*QUESTION WORDING IN 2010 "CAN UNITE THE COUNTRY AND NOT DIVIDE IT"; IN 2008 AND 2009: "WILL UNITE THE COUNTRY AND NOT DIVIDE IT"

METHODOLOGY

A total of 1,003 adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. Among the entire sample, 30% described themselves as Democrats, 27% described themselves as Republicans, and 43% described themselves as independents or members of another party.

All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage.

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of +/- 8.5 percentage points or less. Some subgroups represent too small a share of the national population to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups, but results for groups with a sampling error larger than +/-8.5 percentage points are not displayed and instead are denoted with "NA".
