15. As you may know, the U.S. and other countries have imposed strict economic sanctions against Iran while that country has nuclear facilities which could eventually allow it to produce its own nuclear weapons. Would you favor or oppose an interim deal that would ease some of those economic sanctions and in exchange require Iran to accept major restrictions on its nuclear program but not end it completely and submit to greater international inspection of its nuclear facilities?

METHODOLOGY

A total of 843 adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage. Among the entire sample, 31% described themselves as Democrats, 23% described themselves as Republicans, and 46% described themselves as Independents or members of another party

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of +/- 8.5 percentage points or less. Some subgroups represent too small a share of the national population to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups, but results for groups with a sampling error larger than +/-8.5 percentage points are not displayed and instead are denoted with "N/A".
