* Asked of a half sample.

Q21. Donald Trump has said he will hand over control of the Trump Organization to his adult children while he serves as president. Do you think this arrangement does enough to eliminate conflicts of interest or do you think it does not go far enough to prevent conflicts of interest?

Nov. 17-20
2016

Does enough to prevent conflicts of interest	39%
Does not go far enough to prevent conflicts of interest	59%
No opinion	2%

METHODOLOGY

A total of 1,003 adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. Among the entire sample, 30% described themselves as Democrats, 27% described themselves as Republicans, and 43% described themselves as independents or members of another party.

All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage.

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of +/- 8.5 percentage points or less. Some subgroups represent too small a share of the national population to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups, but results for groups with a sampling error larger than +/-8.5 percentage points are not displayed and instead are denoted with "NA".

Question 1

Do you approve or disapprove of the way Donald Trump is handling his presidential transition?

Base = Total Sample

	Total	Men	Women	White	Non-White
Approve	46%	54%	39%	55%	30%

Question 21

Donald Trump has said he will hand over control of the Trump Organization to his adult children while he serves as president. Do you think this arrangement does enough to eliminate conflicts of interest or do you think it does not go far enough to prevent conflicts of interest?

Does enough to prevent conflicts of interest:

Does not go far enough to prevent conflicts of interest:

Base = Total Sample

	Total	Men	Women	White	Non-White
Does enough	39%	43%	35%	44%	29%
Does not go far enough	59%	55%	62%	53%	70%
