Interviews with 1,000 adult Americans conducted by telephone by ORC International on January 12-15, 2017. The margin of sampling error for results based on the total sample is plus or minus 3 percentage points.

This sample includes 500 interviews among landline respondents and 500 interviews among cell phone respondents.

EMBARGOED FOR RELEASE:
Tuesday, January 17 at 6:00 a.m.

Q1. Do you approve or disapprove of the way Donald Trump is handling his presidential transition?

	Approve	Disapprove	No Opinion
January 12-15, 2017	40%	52%	8%

**WORDING: How likely is it that there will be further terrorist attacks in the United States over the next several weeks -- very likely, somewhat likely, not too likely, or not at all likely?

METHODOLOGY

A total of 1,000 adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. Among the entire sample, 32% described themselves as Democrats, 24% described themselves as Republicans, and 44% described themselves as independents or members of another party.

All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage.

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of +/- 8.5 percentage points or less. Some subgroups represent too small a share of the national population to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups, but results for groups with a sampling error larger than +/-8.5 percentage points are not displayed and instead are denoted with "NA".

CNN/ORC International Poll -- January 12 to 15, 2017

Question 1
Do you approve or disapprove of the way Donald Trump is handling his presidential transition?

Base = Total Sample

	Total	Men	Women	White	Non-White

Question 28
Which of the following statements comes closer to your view on whether information released as a
result of Russian hacking influenced the outcome of the U.S. presidential election?
The information released as a result of Russian hacking was significant enough to change
the outcome of the election
Regardless of the information released as a result of Russian hacking, the outcome of the
election would've been the same
